1U 48-PORT BLANK PATCH PANEL

- **Part NO.: 3012BP08M5LSV01A**

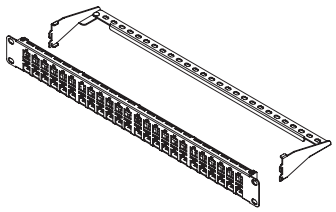

Features

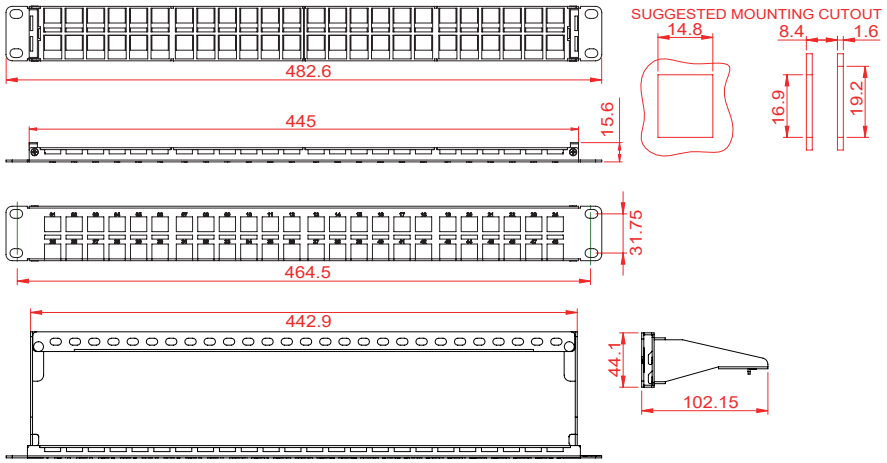

New Compact & Slim design style panel and cable manager allows 48 ports usage in 1U to reduce valuable rack/cabinet space consumption.

- Rigid rear cable manager ensures necessary strain relief so the cable stress results from a tight bend radius directly behind the IDC termination can be minimized.
- User friendly with 48-port on both upper and lower identification.
